

RAMRADE Mud Bucket

The RAMRADE Mud Bucket is designed to improve the efficiency of excavation equipment. Suited to various tasks such as bulking, grading, backfilling, ditching and more. The RAMRADE Mud Bucket is well suited for use with a quick coupler or tilting coupler.

KEY FEATURES

- BIS400 construction which increases the rigidity, durability and longevity of the bucket
- Double radius wrap which allows the bucket to cut through the ground more efficiently
- Wear strips reduce wear to the base
- Tapered sides which helps digging at a tilted angle
- Bolt-on cutting edge which extends the life of the bucket

WHAT'S INCLUDED

Standard Pins

Bolt-on Cutting Edge
